

City of Oklahoma City Continuum of Care (CoC) 2018 CoC Rating and Review Procedure

Background

The U.S. Department of Housing and Urban Development (HUD) released the Continuum of Care (CoC) FY2015 CoC Program Notice of Funding Availability (NOFA) on June 20, 2018. The City of Oklahoma City Planning Department on behalf of the Oklahoma City CoC will submit a collaborative application to HUD for competition funds on or before September 18, 2018. One of the primary responsibilities of the CoC is to develop a new, renewal and reallocation process for selection and ranking criteria of projects for CoC Program funding.

Rating and Review Procedure for New and Renewal Project Applications

When considering new and renewal projects for award, City of Oklahoma City Planning Department staff will conduct a preliminary review of all applications to determine if the project meets the eligibility and threshold requirements as established by HUD. Planning Department staff will review project applications, documentation of 501(c)(3) status, program policies, Annual Performance Reports (APRs); monitoring reports, and A-133 audit reports as applicable. Any project not meeting the threshold requirements will not be further reviewed or considered for funding.

All projects that meet eligibility and threshold requirements will be presented to members of the CoC Governing Board. In accordance with HUD regulations, no member may participate in or influence discussions or resulting decisions concerning the award of a grant or other financial benefit to the organizations that the member represents. The CoC Board members are knowledgeable about homelessness and housing in the area and are broadly representative of the relevant sectors and subpopulations.

The CoC will establish a time frame that allows for review and discussion about the applications, questions and clarification about applications with applicant agencies, scoring of the applications, and presenting project scoring and ranking recommendations. The CoC Board determines the rank and funding levels of all projects considering all of the information provided to them on the application, APRs, monitoring reports and through the applicant presentations. City of Oklahoma City Planning Department staff will provide technical assistance by responding to questions of the CoC Board and correcting technical inaccuracies if they arise in conversation. Each CoC Board member is responsible for calculating scores for each new and renewal project. The average score for the project is then used to determine the ranking.

Renewal projects are scored and ranked according to the Renewal Score Sheet except for HMIS and Coordinated Intake projects as well as first time renewals or projects that have not been in operation for at least one year. Renewal HMIS and Coordinated Intake projects will be ranked at the top of the bottom of Tier 1 rankings. Projects that have not been in operation for at least one year will be ranked after the renewal projects and ahead of new project applications. New projects will be scored based on the New Application Score Sheet and ranked after renewal projects.

Last updated: 08/07/2018

The CoC uses a two-tiered ranking system. Tier 1 funding is equal to 94% of the CoC’s Annual Renewal Demand and Tier 2 is for the remaining amount plus any funds available for bonus projects. A project may straddle the Tier 1 and Tier 2 funding line. The CoC Board considers adjustments for CoC and HUD priorities to best position the CoC to receive maximum overall amount of funding. Scoring results are delivered to applicants electronically with a reminder about the appeal process if a project application is rejected. Applicants not selected by the CoC to be included in the CoC submission to HUD may appeal by submitting their esnaps Solo Application directly to HUD no later than September 18, 2018, at 7:59:59pm (EST). Once the scoring is finalized funding recommendations are made the City Council Social Services Committee for their approval. Once approved by the Social Services Committee funding recommendations are presented to the entire City Council for their approval.

Reallocation

The Oklahoma City CoC has implemented a reallocation process that uses performance data to determine how efficient and effective CoC program resources are being expended to establish if reallocation should be considered to improve system performance and end homelessness within our community. If applicable, funds reallocated, voluntary or involuntary, will be made available for reallocation to create new projects during the local application process.

As part of the local application process for inclusion in the HUD CoC Collaborative Application projects are asked whether they wish to voluntarily re-allocate some or all their funding. Projects with poor performance and/or are not serving the intended population or with significant, unresolved findings are subject to reallocation. Applicants may appeal the decision, and the appeal must be considered by the CoC Board.
